

Geological Society of New Zealand

NEWSFLASH 42  
February 2004

Ian Warwick Keyes

It is with regret that the Geological Society notes the death in Lower Hutt of Ian Keyes on 4 February 2004. Ian joined the Paleontology Section of the New Zealand Geological Survey as a technician in 1955. After his retirement he became the Society's archivist. Like his scientific work, Ian maintained the archives in a meticulous manner. The Society extends its condolences to his wife Mary and family.

Mike Johnston, President
