

## Student Group Grants

Student groups who are GSNZ members may request funding from GSNZ on a case-by-case basis. This is intended to support student geological activities that involve or promote geoscience in NZ.

In order for an application to be considered we require:

- A 300-word summary (max) of what is intended to be done and the geological significance.
- If it is for a fieldtrip, then an itinerary, from start to finish, is required.
- A budget for the event, with quotes for the particular items for which funding is being sought.
- Estimated number of people involved.
- A short statement from the HOD indicating support of the event.

Applications should be compiled into a single pdf and sent to:  
President@gsnz.org.nz

## Terms and Conditions

Student Group Grant applications will only be accepted from groups who are GSNZ members.

A report and pictures of the event will be required for the GSNZ Newsletter.

Acknowledgment of GSNZ support in the group's communications with members/social media channels would be appreciated.

Food and alcohol will not be funded.

Grants will be small (likely \$500 or less).

Each group may only apply once in any 12-month period.

All decisions are subject to the committee having the available funds, which may not always be the case.
